

2024 CGU and UQ Engineering and Cultural Summer Program

This program is conducted in English!

Meet friends from Taiwan,
Australia, and other countries!

SCHEDULE

July 2nd to 12th, 2024

INTRODUCTION TO PROJECTS

IoT-based Inertial Motion Sensing
on Embedded System with
Artificial Intelligence (AI) and its
Medical-care Applications

Micro-Electro-Mechanical
Devices for the Measurement of
Medical Signal

Arduino-based LED Cube Design
and Implementation

Semiconductor Process for
Electronic Device and Chemical
Sensors

What do we offer?

- Training sessions
- Academic Talk
- Language courses
- Cultural activities
- Company visit
- Accommodation

Students' Professional Fields

- Electrical and Electronics Engineering
- Computer Science or Data Science
- Mechanical Engineering
- Information Technology
- Biomedical Engineering
- Chemical and Materials Engineering

Pricing:

Regular	NTD 30,000
CGU partner institution	NTD 27,000

Registration:

Apr 01 to Apr 30
